Objective

Motivated and dedicated IT student with a strong foundation in cybersecurity, ethical hacking, and cloud security. Seeking an internship role or an entry-level position to apply my technical skills and gain further hands-on experience in a dynamic environment. I am eager to contribute to security operations, digital infrastructure, and technical support teams, while gaining practical experience and enhancing my expertise in the field.

Technical Skills

- Operating Systems: Linux, Windows

- Network Essentials: TCP/IP, Subnetting, Common Ports and Protocols
- Programming: Python, C#, Windows Forms

- Computer Hardware

- SQL Databases

- Enhancing Productivity with MS Office

- Ethical Hacking: Vulnerability exploitation, penetration testing
- Tools: Nmap, Metasploit, Wireshark, Burp Suite, Nessus, Hash cat etc.,

Soft Skills

- Problem-Solving

- Analytical Thinking

- Team Collaboration

- Communication

Personal Experience

Cybersecurity Training Labs

- Conducted extensive practical work on Active Directory and web security.

- Developed and executed penetration testing scenarios in virtual environments.

- Successfully exploited vulnerabilities in web applications, networks, and systems.

- Conducted detailed security assessments and prepared comprehensive reports.

Education

Pearson BTEC Level 5 HND in Computing (Cyber Security) - ESoft Metro Campus (Currently Following - Weekend)

Completed A/l - Bandaranayake College Gampaha (Math stream) C-2/F-1

Certifications

Verified Ethical Hacker from CISCO.

(ISC)2 Self-paced Training Cybersecurity.

Extracurricular Activities

- Cybersecurity Workshops: Actively participated in multiple cybersecurity and hacking workshops.
- Player of Hack the Box Lab.
